Certificate of Conformity

This is to certify that an armoured **Land Cruiser 200** produced by **Mahindra Emirates Vehicle Armouring (MEVA)** has successfully met the protection requirements of the QinetiQ test specification:

Specification for Vehicle Proving Trials: MEVA Toyota Land Cruiser 200 - QinetiQ/TEG/WES/TPN140071015th Oct 2014, Issue 2

The vehicle has been assessed against the following threats:

Ballistic protection for opaque and transparent materials in accordance with VPAM BRV2009- Level VR7

- Attack angles of between -90 and +90° to vehicle sides, front and rear, with elevations of between 0 and +45° including roof with an impact angle of 45°

Blast protection 15kg TNT, detonated 3 m from the side of the vehicle

Under floor protection against one DM31 AP mine

Roof protection against two DM51 hand grenades

The testing was in accordance with the requirements of: **VPAM BRV 2009**, and **ERV 2010**.

The complete results of the test programme can be found in QinetiQ report:
Full Vehicle Testing of Mahindra Toyota Land Cruiser 200 to VPAM VR7 and VSAG VS6
QINETIQ/WES/EDP1400625 Dec 2014

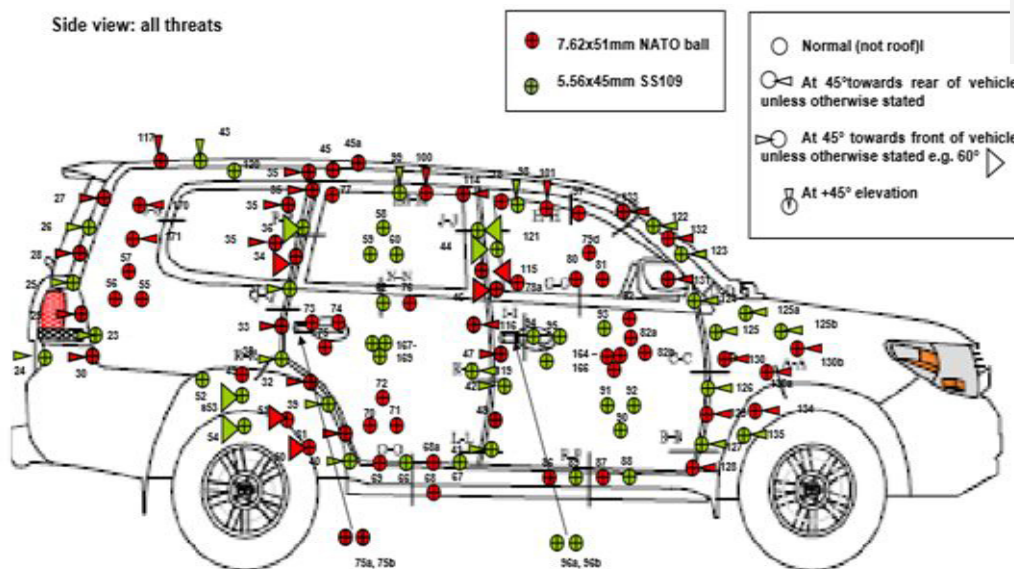

Testing of a fully armoured vehicle was completed November 2014
This Certificate applies only to vehicles produced in strict accordance with MEVA vehicle drawings

ARMoured MAHINDRA SCORPIO-IED BLAST

We are writing to you with regards to 05 units of Armoured Mahindra Scorpio Pick Up's manufactured by "Mahindra Emirates Vehicle Armouring" and supplied to Kenya Defence Force, Kenya recently.

Unfortunately one of the armoured Mahindra Scorpio Pick Up's has recently undergone the most important live fire test of all, wherein the vehicle convoy was moving within Kismayu-Somalia with a VIP and while enroute was attacked by a significant IED blast and numerous gun fires.

It's never a good day when a vehicle is attacked in such a violent way, but we are please to inform you that the armouring defeated the assault and the VIP survived.

We thank you and all the team at "Mahindra Emirates Vehicle Armouring" for doing a great job in armouring and saving life and we are extremely happy with technical professionalism.

Thank you for your pride in offering each customer the best in service, quality and attitude. Your great customer service is highly appreciated.

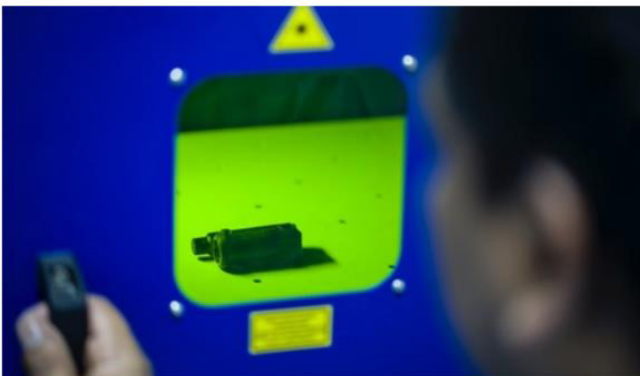

JOSEPH N. MWAI

GOVERNMENT GRADE SECURITY SOLUTIONS

ENCRYPTED COMMUNICATION APPLICATION & SOLUTIONS

ACTIVITY NETWORK

ENCRYPTED MOBILE COMMUNICATION SOLUTIONS

FOR GOVERNMENTS & INTELLIGENCE AGENCIES

Introduction

Secure Communication has become the need of the hour for all Government agencies and private multinationals. With the number of social media monitoring tools & interception equipment in the market along with ransomware attacks, it has become important for both Public & Private entities to secure their communication and ensure the data at rest is secure at any given point of time.

Gathering Requirements

Client briefs us of what they want and need. Project timelines are set as well.

STEP
01

STEP
02

Designing The GUI

Our Team designs the GUI as per client requirement from the base code and then starts client customization of the IP

Development of Custom Application

We start building the custom application from our base code best suited and requirements placed by the client

STEP
03

Testing "Beta Phase"

We test the application in the Beta Phase and then do integration as per client requirement

STEP
04

The Delivery

We Build & Maintain a Custom Encrypted Communication Platform For the Client along with the IP Owned by the client.

STEP
05
